Bachelor of Science in Information Systems, *summa cum laude*, May 2020
Major: **Information Systems**
Minor: **Computer Science**

WORK EXPERIENCE

Manager/Producer, Kahone Concept, Pittsburgh, PA, Fall 2015 – Present
- Design, build, and maintain Web sites, using drag-and-drop web builders as well as HTML, CSS, and JavaScript, content creation tools, management tools, and digital media
- Produce, mix, and engineer media content, liaising with producers, performers, and other industry professionals to determine and achieve the desired sound for a production, such as a musical recording or a film, working within Pro Tools, Logic Pro, MainStage and Ableton Live
- Negotiate with managers, promoters, various media outlets, and organizations regarding contractual rights, according to contract terms
- Plan, prepare and curate advertising and promotional material, including various forms of social media, to increase sales of products or services, inspect layouts and advertising tools, audio and video tapes, and other promotional material for adherence to specifications
- Develop set designs and programmed light shows working within Ableton Live, based on budgets, research information, and available locations, preparing rough drafts of sets, including floor plans, scenery, and properties to be constructed
- Develop graphics and layouts for product illustrations, company logos, and Web sites using Adobe Photoshop

Shift Manager, The Movies at Cranberry, Cranberry, PA, March 2013 – March 2020 (Part-time)
- Directed, supervised, and trained employees, engaged in sales, inventory-taking, reconciled cash receipts, and performed services for customers
- Operated computers programmed with accounting software to record, store, and analyze information; mainly Microsoft Excel and Microsoft Word
- Checked figures, postings, and documents for correct entry, mathematical accuracy, and proper codes, auditing safe, drawer counts, and nightly deposits

SCHOLASTIC PROJECTS

Programmer/UX, Two Sisters in the Wild, Clarion, PA, Spring 2020 – Spring 2020
- Performed and directed revision, repair, and expansion of existing programs to increase operating efficiency and adapt to new requirements set by client
- Compiled and wrote documentation of program development and subsequent revisions, inserting comments in the coded instructions so others can understand the program
- Troubleshot and corrected errors by making appropriate changes and rechecking the program to ensure that the desired results were produced
- Created icons, fonts and displays to replace the previous sprite image based system. Icons remained crisp and clear while remaining on brand for clients company

SKILLS

Programming Languages: Experience working with C#, C++, LISP, Java, JavaScript, HTML, and Prolog
Applications: Experience with Microsoft Visio, Microsoft Access, Microsoft Excel, and Adobe Photoshop
Database Management: SQL Server
